Leticia Veronica Camienski Marcos

Building Technician | BIM Modeler | Architecture and Urbanism Undergraduate (9th semester)
Email: levecmar@hotmail.com | Phone: +55 41 99271-8151 | Nationality: Brazilian

PROFESSIONAL SUMMARY

I'm a BIM Modeler and Building Technician, currently in my 9th semester of Architecture and Urbanism. I enjoy turning complex projects into clear, well-organized models and documentation, and I've worked on structural, architectural, electrical, plumbing and sanitary, and fire protection projects, as well as quantity takeoffs, including international work. Revit, AutoCAD, Navisworks, Dynamo, and pyRevit are the tools I work with, and I especially like automating repetitive tasks, standardizing processes, and helping my team deliver high-quality work.

TECHNICAL SKILLS

- **Software:** Revit, AutoCAD, Navisworks, Trimble, Dynamo, pyRevit
- **BIM:** BIM modeling, technical documentation, multidisciplinary coordination, process standardization, task automation
- **Project disciplines:** structural design (cast-in-place and precast concrete), architectural, electrical, plumbing and sanitary, and fire protection design, quantity takeoffs, preliminary studies, detailed design, compliance with health surveillance regulations, and hospital projects (RDC 50)
- **Professional skills:** organization, communication, collaboration, problem-solving, standardization

PROFESSIONAL EXPERIENCE

BIM Modeler | Wosniak Engenharia | Aug 2026 – Present
- Develops models, documentation, and coordination for structural projects, including ports, special engineering structures (OAE), and smaller buildings, in cast-in-place and precast concrete.
- Contributes to the company's standardization and quality processes by revising and producing documents to improve deliverables.
- Develops Dynamo and pyRevit automations to streamline tasks and reduce production time.

BIM Modeler | ENG | Aug 2023 – Jul 2026
- Prepared, modeled, and documented electrical projects in BIM.
- Supported solution development and multidisciplinary coordination.

Building Technician | STCP Engenharia de Projetos | May 2021 – Aug 2023
- Developed projects in AutoCAD and Revit, from preliminary studies through detailed design.
- Worked on architectural, plumbing and sanitary, electrical, and fire protection projects.

Building Technician | Provisa Engenharia | Nov 2019 – Apr 2020
- Adapted projects to meet health surveillance requirements.
- Worked on compounding pharmacy and hospital projects (RDC 50).

Building Technician | Almirante Tamandaré City Hall | Mar 2019 – Jun 2019
- Prepared cost estimate spreadsheets.
- Supported public procurement processes.

EDUCATION

- Bachelor's Degree in Architecture and Urbanism | UniOpet Centro Universitário (university center) | Jan 2021 – Dec 2026 (in progress, 9th semester)
- Technical Diploma in Building Construction (Integrated High School Program) | Colégio Estadual do Paraná (state high school) | Jan 2017 – Dec 2020

LANGUAGES

- English: Fluent | Portuguese: Native
